# Home Care Bed

## Bed and furniture for care at home

These beds have special features both for the comfort and well-being of the patient and for the convenience of health care workers. Common features include adjustable height for the entire bed, the head, and the feet, adjustable side rails, and electronic buttons to operate both the bed and other nearby electronic devices.

# 4 Motors Easy Assembling Multi- Function Home Care Bed

Convenient Transportation

The new modular medical beds can be easily disassembled into smaller components, simplifying transportation and reducing associated costs and time. This added flexibility allows for efficient delivery to various locations, making it easier to serve patients in different settings.
